

# CompMon

Compliance monitoring pilot for Marpol Annex VI

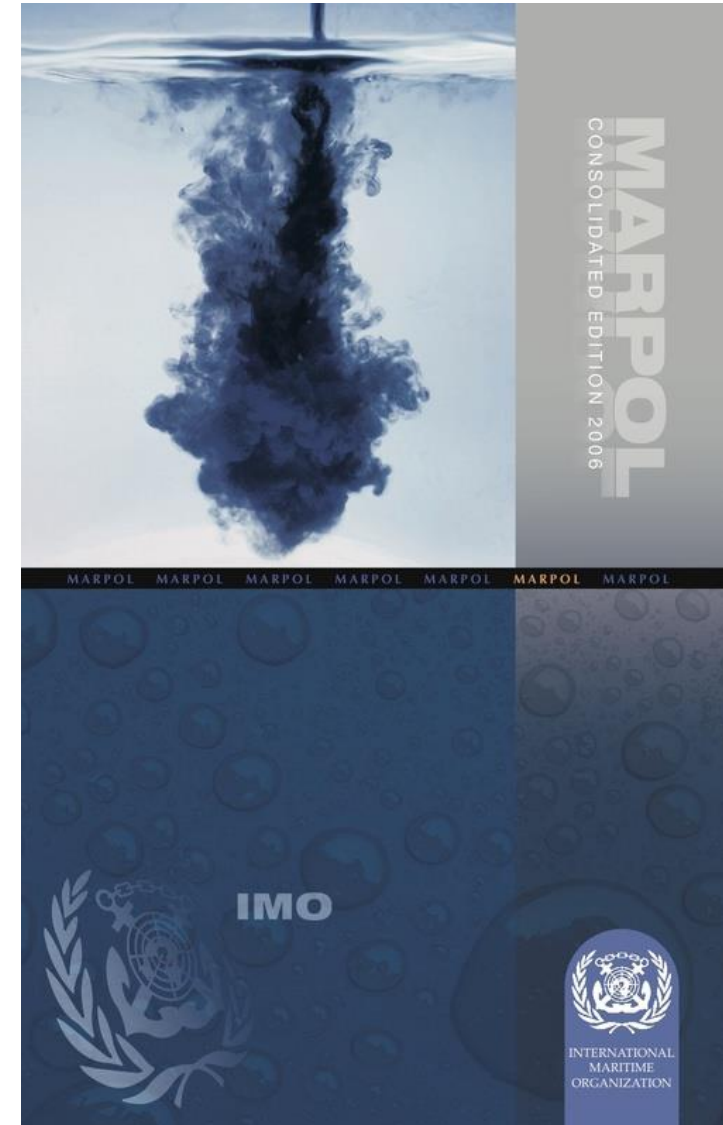

## Future views of the compliance monitoring

8<sup>th</sup> December 2016

Juha-Matti Korsi  
Head of Department  
Finnish Transport Safety Agency

## Challenges

- How to ensure world wide level playing field?
- How is the high seas surveillance carried out in the future?
- Satellite based monitoring methodes and techniques, when will it happen if ever?
- Standardisation of remote monitoring measurement without preventing the implementation of new technologies.

## Solutions?

- International co-operation
- IMO
- EU / ESSF subgroup of air emissions from ships
- EMSA role
- Data collection and sharing (Thetis EU)
- Banning of high sulphur ( $> 0,5\%$ ) fuel for ships without EGCS?
